

Service Wire Closure

TELECOM OUTSIDE PLANT

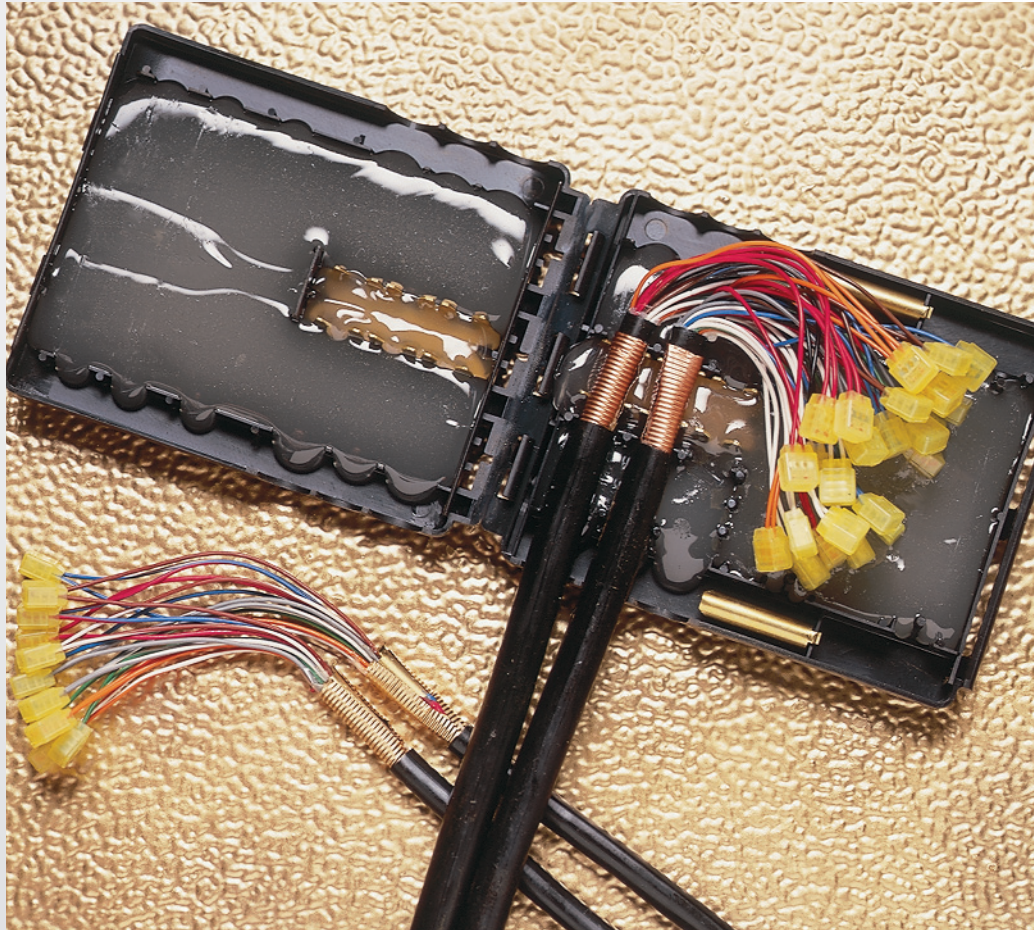

The CERTI-SEAL buried service wire closures bond and protect butt and in-line splices from 2 through 12 pair buried service wires.

Advantages:

- Reliable — Integral bonding system applies constant pressure on service wire shield for long-term reliability; gel-filled construction seals out environment and will not leak.
- Easy to Install — One-piece, snap-together latching system; pre-installed gel sealant eliminates special handling
- Meets Telcordia Specification TR-NWT-00025 1

Applications:

- Splice Protection
- Demarcation Points
